ORGANIZATION

OF THE

CITY GOVERNMENT FOR THE YEAR 1927

The final meeting of the City Council for the year 1926 met in the Council Room January 3rd and adjourned to the Opera House where Mayor Kelley delivered the following address:

Ladies and Gentlemen:

At this, the close of another year, I submit a brief review

of some of the things we have accomplished.

In view of the industrial situation, I believe that the manufacturer should be given every possible consideration, and in view of the general conditions, that the tax payer deserves a more prominent place in the minds of those who vote away his money. Holding these views, we have tried to practice economy, but certain things have arisen to make necessary a considerable outlay for new equipment. Efficiency in the operation of the Highway department required the purchase of three new trucks at a cost of \$6,115, and for the Fire department, insistence of the New Hampshire Board of Underwriters required the expenditure of \$14,100 for equipment.

The disposal of the city's garbage is another perplexing question. Unquestionably the installation of an incinerator would furnish the most sanitary means of disposal and this method has its able advocates. Believing that the garbage nuisance should be removed from our beautiful Webster lake section and also because of the great expense of carting so far, I advocated, and through the cooperation of the Council, secured its removal to the Edmunds Farm. This location is so far from homes that I have heard no complaints, and yet so near the city that we effect a substantial

saving. It is reported that the Railroad has offered the use of ravines near the present dumping ground. If this be so, I believe it is wise to continue using sites in or near the

present locality.

The Highway commissioner reports the following: The Highway department, in addition to the usual repairs has accomplished a considerable amount of new work. The narrow curve and bridge at Punch Brook has been eliminated. This section was in poor repair as well as narrow, crooked and dangerous, so it seemed wise to accept State and Federal Aid. By this arrangement, Franklin was relieved of three-fourths of the expense, leaving \$10,000 as The Andover or Mascoma Valley route has been scarified and re-dressed. Three and four-tenths miles of the Sanbornton Road to the town line was also scarified and re-dressed. On the Webster Birthplace Road 1,800 feet was graded and surfaced with gravel and about \$2,500 spent in the construction of a cement arch bridge. Five and four-tenths miles to the Hill line was scarified, redressed and oiled twice, making what is hoped to be a permanent improvement. Permanent work has also been done on Cheney hill, Bow street, parts of School street, South Prospect street and Elm avenue. At the head of Webster lake 800 feet has been graded and surfaced with gravel; this work should be extended each year.

In all our work we have planned to build permanently so

far as conditions would allow.

The sewers are reported to be in good condition.

For several years the expenses of the Fire department have been steadily mounting and this year have reached the high water mark \$28,422.80 of which \$14,100 was extraordinary expense for new trucks and pumper, and the cancellation of the Prescott contract. One of these trucks may later be transferred to the Highway department.

With these additions we are well equipped to fight the fire fiend. One of our two pumpers should be held for home protection in case the other is called for emergency service beyond our borders. Then, too, there is always a possibility that an accident may disable one machine at a critical moment. With two pumpers this danger is much lessened. Chief Colby, in a recent conversation with me, expressed the opinion that smaller appropriations would

take care of future needs. I earnestly hope this will be the case. The Prescott Service seemed to be generally satisfactory and doubtless would have been continued had not the New Hampshire Board of Underwriters insisted that the city have another pumper or be doomed to a substantial increase in insurance rates.

The largest department in our city government is the School department. Is it not also the most important? It involves the future welfare of the city in a way that no other department can. It should be a center of civic interest to every citizen because it touches so closely nearly

every home in the community.

While the schools are costing more money than they did ten years ago, we must not forget that under the new management and organization they are giving more in return for the money invested. In comparison with other towns and cities, it is evident that the Franklin schools are efficiently and economically managed and that they compare favorably with any other schools in the State.

The tax collector's task is an arduous one, but the long list of abated and uncollected taxes is deplorable. The few dollars required of the poll tax payer in return for the many benefits bestowed upon him, he should promptly and cheerfully pay. However, too many of the delinquents, I fear,

are poorer in mind and disposition than in purse.

One year ago I remarked that public spirited, patriotic citizens were one of our most valued assets. Our city is

to be congratulated that we have so many of them.

While I believe the service rendered by nearly all of the city employees has been commendable, that of City Clerk Goss and City Auditor Sleeper deserve special mention.

I thank you, gentlemen of the Council, for your friendly cooperation and my most sincere thanks I extend to all. Following the mayor's address the council adjourned.

Judge Thomas F. Clifford administered the oath of office to W. Earle Goss as mayor and George G. Fowler, Albert J. Garneau and Bland C. Redman as councilmen. Councilman Fowler succeeds Councilman Riley, Councilman Garneau was elected to succeed himself and Councilman Redman succeeds Councilman Sinclair. Mayor Goss called the council to order and prayer was offered by Rev. Wilton E. Cross. Councilmen Fowler, Mailey, Jones, Garneau, La-

gace, Lemire, Lawrence, Redman and Martin were all present. Mayor Goss delivered the following inaugural:

Mayor Goss' Inaugural

Ladies and Gentlemen-Fellow Citizens:

It is with a feeling of great pride that I take upon myself the oath of office as Mayor of the City of Franklin, because it is not often that a man of my years is called upon to serve a city in this capacity.

And it is with all seriousness that I enter upon my new duties of office, realizing that it is not to be taken lightly and for the honor alone, but that it will require much of

time and thought and effort to be successful.

To those of you who supported me at the City election, and had confidence in my ability to perform the duties of this office,—I extend my sincere thanks, and let me say that whatever of experience I have had in business here for the last 15 years and whatever knowledge of this city and its people I have gained through living here all my life;—I pledge to this office and with your cooperation I hope to succeed.

Gentlemen of the City Council:

I ask you to pause for a few moments and think again of your duties as councilmen. You have been elected by the people of your respective wards to conduct the business affairs of the City of Franklin. Your constituents had faith in your ability and integrity as men, and I urge you to do the job well. Give time and serious thought to committee work and attend council meetings regularly.

The year 1927 is before us with its many perplexing problems. Let us meet them squarely and fearlessly and although it may not be the most prosperous year that Franklin has enjoyed, let us make it one of the good years and work together to promote harmony and the welfare of the

city and its people.

So much is said these days about economy that it may be well at this time to consider what is the true meaning of economy. As some one has said, Economy is a thing to be desired. It is particularly to be desired in the matter of public expenditures. Yet the true meaning of practicing economy must be understood in connection with public enterprises as well as in private enterprise. If in the conduct

of a business a man can make certain improvements in his equipment and thereby reduce his expenditures by an amount greater than the cost of the improvements, he is practicing true economy in undertaking to secure the improvements.

The citizens of Franklin would not wish us to practice strict economy for the sake of a very low tax rate. They would not sacrifice good schools, good roads, good police and fire protection for low taxes and yet on the other hand they despise extravagance. Throughout this year let us carry on the work carefully and spend their money wisely.

I have a few recommendations for the more important

committees which I wish to make at this time.

For the highway department I recommend for your consideration that the city proper be divided into districts and that a patrolman be assigned permanently to each district. It would be his duty to care for certain streets the year round, keeping manholes and gutters and sidewalks clear of dirt and passable in winter and doing other duties which have to do with highways and be personally responsible for his district. A man will take pride in a district and keep it in good condition.

I also recommend that Pleasant street from Oak street to Davis street, the east end of Pine street, Railroad avenue from School to Winnipiseogee street and parts of View street, Maple street and Pearl street be shaped up and covered with tar. Tar is much less expensive than concrete and with a little care will last until a permanent road can be

afforded.

Also that the road at the foot of Webster lake be covered with ashes or something as good and made passable to the Daniell gate. A great volume of traffic passes over this road in the summer and a great deal in taxes is paid by cottage owners who get very little outside of street lights.

I recommend that this department hire a first class man to act as assistant to the highway commissioner with the idea of succeeding him whenever a vacancy in this office

may occur.

The Fire Department with three new pieces and one old piece of motor apparatus is in fine shape. A new fire station must be built sometime when our financial condition warrants the expenditure. For the Police Department I recommend 24 hour service in place of 18. I also recommend the purchase at once of three riot guns for the department. Also that an officer be kept on duty at the junction of Franklin and Central streets daily from April 1st to December 1st if not the year round. This recommendation is to cover a three-fold purpose. Thousands of dollars in cash are handled on that corner every week in pay rolls, merchants' deposits and by individuals, crowds of school children cross Central street there four times a day and it is the most congested traffic

corner in the city.

Schools—The Education of our boys and girls. No other branch of our whole system is more important. A question that has been raised several times in years past is, why do so many teachers just out of normal schools remain here for one or two years' training and then move on. Is it that they do not like this city to live in? Do our neighboring cities have the same trouble or are we paying smaller salaries? I believe that our children are not getting the best of training because of it and I believe that good teachers should be induced to stay in Franklin. I hope the school committee of this year will take this matter up with the Board of Education and see if it cannot be remedied. Keeping the average cost per pupil down with too small teachers' salaries is nothing to boast about.

I have good reasons for all of these recommendations and will be pleased to go into them at length any time.

Let us proceed with the election of officers for the ensuing year.

CITY GOVERNMENT

CITY COUNCIL

Mayor

Elected annually on the fourth Tuesday of November. Salary \$200 a year. W. EARLE GOSS

Councilmen

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

	term Expires.
Ward 1—Bennie C. G. Jones	January 2, 1928
Albert H. Mailey	January 7, 1929
George G. Fowler	January 6, 1930
Ward 2—Eusebe P. Lemire	January 2, 1928
Alphonse Lagace	January 7, 1929
Albert J. Garneau	January 6, 1930

HIGHWAY DEPARTMENT

HIGHWAY COMMISSIONER'S REPORT

To the Mayor and City Council of Franklin:

I herewith submit the annual report of the Highway

Department for the year 1927.

The department has the same trucks as in 1926, excepting the exchange of the Reo truck for another of the same make, but larger and more durable, the purchase of a light Ford truck and acquirement from the fire department of the Mack truck.

The department also added to its equipment a new Fordson tractor and Sargent snow plow which have proven very valuable additions to the snow removing

apparatus.

The outside roads were repaired by the use of the road machine and were kept in good condition by dragging, until the freshet of November 3rd and 4th.

Bridges

The Sanborn bridge was entirely replanked with three inch plank and then covered with 2×3 joist placed edgewise, after which the whole surface was treated with Tarvia B and sand.

A new bridge was built on the so-called "New Road," leading to Salisbury, the old bridge having been carried

away by the freshet.

Streets

A new highway from Salisbury street to Gilman street was laid out by the City Council and constructed by the department. The street is about 850 feet in length, with suitable culverts, headers and railing. This new highway will be known as Gilman street.

In addition to the streets mentioned in the 1926 report, School street from Sulloway Mills to Prospect street, Railroad avenue from School street to Winnipiseogee street, Pearl street from Central street to Park street, Maple Square from Central street to Park street, Park street from Pearl street to Sanborn street, Sanborn street from Aiken avenue to Proctor street, Terrace Road from Pleasant street to Davis street, Pleasant street from Elm avenue to Davis street, View street to Stone avenue to Prospect street, were all treated with Tarvia B and sand for the first time.

The lower end of Elkins street, Winnipiseogee street from River street to Franklin street, West High street from Franklin street to River street, Central street from Sanborn street to Clark street, Sanborn street from Central street to Aiken avenue, Orchard street from Elm avenue to Pleasant street, Webster street from North Main street to Summit street, Prospect street from Winnipiseogee street to Charles Palmer's, were all treated with a second coat of Tarvia B and sand.

A third coat of Tarvia B and sand was applied on

Elm avenue.

A coat of A Binder and sand was applied the entire length of Bow street, also South Main street from Central street to the Kenrick Estate and North Main street from Central street to the Needle Shop bridge.

New Gravel Construction

East Pleasant street from Davis street to the residence of Thomas Piela, a distance of about 4,700 feet, has been graded and covered with a coat of gravel, making it an excellent and durable highway.

Sanborn street from Proctor avenue to the Sanborn tarm, so-called, a distance of about 2,000 feet, has been

regraded and covered with gravel.

Sidewalks

New concrete sidewalks were constructed on Pine street, Myrtle avenue, West High street, and Central street in front of the Courtemanche residence.

State Aid Construction

Work on the Daniel Webster Birthplace road was continued and in addition to building a new bridge, about 1,500 feet of new road was graded and covered with gravel.

A great many ledges were encountered which very

much delayed the construction of the highway.

Trunk Line Maintenance

The Andover road was treated with a coat of Tarvia B and sand from Summit street to the Andover town line.

Two hundred feet of the highway north of the Webster Lake underpass was banked on the outside of the curve in an endeavor to lessen the danger of accidents, many of which have occurred at this point.

State Aid Maintenance

The Hill road from the residence of William H. Nelson to the Hill town line was treated with a coat of A Binder and sand and the Sanbornton road from Cheney Hill to Cate Brook was similarly treated. From Cate brook to the Sanbornton town line the road was treated with Tarvia B and sand.

The flood of November 3rd and 4th caused serious damage to our streets and outside roads, and the cost of

repairing same will be very large.

The following is a list of the roads and streets that

were badly damaged:

The Dole road for a distance of about one-half mile was practically destroyed and the Great Gains road was in a similar condition.

The road near Charles Shannon's for a distance of

about 1,000 feet was very badly washed.

Daniell street for a distance of 400 feet was washed out to a depth of about six feet and in places 20 feet in width.

Smith Hill road, so-called, was washed out to the foundation of ledge and rocks.

All of the above roads were impassable for a con-

siderable period.

The Leighton road was badly washed out as was also Pleasant street, Heath road, Cross road, South Prospect street, New Boston road, Giles Mill road, Bennett road, Call road, road at head of Webster lake, Summit street and nearly all the streets on Willow Hill.

A large sum of money will be required to repair the roads and streets mentioned, but it is hoped that the

State will contribute toward the expense.

I wish to thank the Mayor and Highway committee for their cordial support and great interest in the progress of the department.

JAMES C. NOWELL, Commissioner.

FIRE DEPARTMENT

ENGINEER'S REPORT

The following report from December 31, 1926 to December 31, 1927 is submitted: The manual force consists of Chief Harry E. Colby and two assistants, John E. Cunningham and Leslie N. Boomhower. The combination chemical and pumper, 15 men, Edward Wheeler, captain. The City Service Hook and Ladder Company, No. 1, 15 men, Albert Garneau, captain. Hose Company No. 1, South Main Street, 10 men, Alwin Dean, captain.

Location of Apparatus

Hose Company, No. 1, South Main Street

One Auto Hose Truck. One 12-foot roof ladder. One 25-foot extension ladder. One 30-foot ladder. 500 feet 2½ inch hose.

Central Fire Station

One American LaFrance Triple Combination Truck, 1 Mack City Service Hook and Ladder Truck, one Oakland Hose truck, with eight pony extinguishers, one 25-foot extension ladder, one 25-foot roof ladder, axes and shovels. There is at the Central Fire Station 3000 feet of $2\frac{1}{2}$ inch hose in good condition.

Hose 3, Central Street, Opposite Paper Mill B

One hand reel with pipes, wrenches, spanners and 400 feet of $2\frac{1}{2}$ inch hose.

Hose 4, Head of Elm Avenue

One hand reel with pipes, wrenches, axes, spanners and 400 feet of 2½ inch hose. One two-wheeled truck equipped with one 31-foot roof ladder, one 28-foot, one 20-foot and one 15-foot ladder.

Hose 5, Pearl Street Near Park Street

One hand reel with pipes, wrenches, axes, spanners, and 400 feet $2\frac{1}{2}$ inch hose.

Hose 6, Sturtevant Street

One hand reel with pipes, wrenches, axes, spanners and

400 feet of 21/2 inch hose.

Pony extinguishers to be used by any person for fire purposes in the vicinity of the places of keeping, are in the following places: City Hall 4, Franklin passenger station one.

We have on Hose No. 1, 500 feet of hose.

We have on the American LaFrance Triple Combination Truck, 1000 feet of hose.

We have on the Mack City Service Hook and Ladder Truck, 500 feet of hose.

Recommendations

We recommend the purchase of new fire hose and fire alarm boxes.

HARRY E. COLBY, Chief. JOHN E. CUNNINGHAM, Ass't and Clerk. LESLIE BOOMHOWER, Ass't.

Board of Engineers.

Regulations of the Franklin Fire Department

Adopted December 20, 1909.

- Section 1. The fire department of the City of Franklin shall be composed of a chief engineer, first assistant engineer, second assistant engineer, and a superintendent of fire alarms, who shall each be appointed by the city council; combination chemical and pumper company to consist of fifteen men, one hose company to consist of ten men and one hook and ladder company to consist of fifteen men.
- Section 2. The chief engineer and two assistant engineers shall constitute a board of engineers and shall exercise the power of firewards,
- Section 3. The chief engineer and each assistant engineer shall hold his office and perform his duties until his successor takes his oath of office.
- Section 4. The City Council, for cause, after hearing, may remove from office the chief engineer or any assistant engineer.

Chief Engineer

- Section 5. The chief engineer shall have sole command over all persons present at fires whether members of the fire department or not.
- Article 1. He shall direct all proper measures for extinguishing fires, protecting property, preserving order at fires, and enforcing laws, ordinances and regulations regarding fires.
- Article 2. He shall have charge of and examine into the condition of all fire apparatus, fire alarm system, houses and all fire department property and shall cause needed repairs to be made under the direction of the committee on fire department of the City Council.
- Article 3. He shall certify all pay rolls and bills against the department and shall be responsible for the care of all property connected with the fire department.

Article 4. In the absence of the chief engineer the next engineer in rank, who may be present, shall have power to perform the duties of the chief engineer.

Board of Engineers

- Section 6. The board of engineers shall inspect and make themselves familiar with all shops, factories, hotels, tenement houses, public buildings, halls, churches and schoolhouses once a year, and study the location of all hydrants and generally inform themselves in all matters pertaining to their duties.
- Article 1. They shall have control of all persons appointed to serve in any company of the fire department and shall have power to direct and control the labor of all persons present at a fire.
- Article 2. They may from time to time make and enforce such regulations for the government of the department as they deem proper.
- Article 3. They may establish such regulations respecting public safety, kindling, guarding, safe keeping, prevention, and extinguishment of fires, and for the removal of combustibles from any place, and the keeping or storing of explosives, as they think expedient, which shall be signed by a major part of them, approved by the Council and recorded by the city clerk, and attested copies posted in two or more public places in the city thirty days before they shall take effect.
- (a) Penalties not exceeding ten dollars for each offense may be prescribed for breach of such regulations and such regulations shall remain in force until altered or annulled.
- Article 4. They shall examine the qualifications and fitness of all applicants for membership in the department and no person, whose application has not been approved by a majority of the board of engineers, shall become a member of the company.

- Article 5. At the first meeting in each year, after the qualification of the engineers, they shall proceed to elect, by a majority vote, a clerk of the board of engineers, a captain, a lieutenant and a clerk for each company, each of whom shall hold office until his successor is elected.
- Article 6. Any member of any company may be dismissed from the department or from office in a company by two-thirds vote of the board present.
- Article 7. They shall in conjunction with the annual report of the chief engineer, make recommendations as to the needs of the department.
- Article 8. Every engineer shall cause any fire deemed by him to be dangerous, in any street or elsewhere to be extinguished or removed.

Superintendent of Fire Alarm

Section 7. The fire alarm system shall be under the control of the chief engineer, with direct supervision by a superintendent of fire alarm, who shall be elected by the Council.

Committee on Fire Department

Section 8. Article 1. They shall direct all repairs of the houses, fire alarm system, and fire apparatus.

Article 2. They in conjunction with the board of engineers shall hold meetings on the last Wednesday of each month.

Adopted December 5 and 19, 1910.

Amended May 20, 1918.

1. That the salary of the chief engineer be \$150 a year and 75 cents per hour for actual service at fires. It is understood under this arrangement that he shall not put in any time except for fires.

- 2. That the number of assistant engineers shall be two, and that the salaries of each shall be \$50 per year and 75 cents per hour for actual service at fires. Also that two alternates from the regular force be appointed by the chief engineer on January 1, to serve in absence of assistant engineer at a proportionate salary.
- 3. That the clerk of the Board of Engineers shall receive a salary of \$15 per year for his services.
- 4. That the members of the various companies shall each receive a salary of \$25 per year and 50 cents per hour for all services.
- 5. That the Superintendent of Fire Alarm shall attend to all repairs on the fire alarm system.

Under this head it is understood that he shall at all times keep the line clear of trees and branches and other obstructions and shall not receive extra pay except for manual labor; that he shall attend to the winding of all clocks and see that the house man at the Central Fire Station takes proper care of the storage batteries and switch board; and he shall see to the procuring of supplies for the whole system through the purchasing agent, with the approval of the chief engineer and fire department committee.

CLAIMS FOR DAMAGE

Paid:—
Dec. 15, Perin E. Hersey, settlement in full for damage to automobile by fire truck.... \$75 10

BOARD OF HEALTH REPORT

The Board of Health respectfully submits the following report for 1927:

Contagious diseases reported for which disinfecting was necessary, tuberculosis 2, scarlet fever one. There was a mild epidemic of diphtheria consisting of 31 cases with four deaths. There were two deaths from tuberculosis. A few cases of measles were reported with no deaths. The total number of deaths the entire year exclusive of stillborns was 102. The number of bodies brought here for burial from other places was 57.

Most of the school children were given the Schick Test

Most of the school children were given the Schick Test followed by the inoculation of three doses of Toxin-Antitoxin to immune them from diphtheria in the future. I wish to thank the School Nurse and the Red Cross Nurse for their valuable assistance in helping me make these

inoculations.

In concluding this report, we wish to thank the Honorable Mayor and Councilmen for their hearty support given us in the performance of our duties.

W. E. SMITH, M. D., I. V. GOSS, W. S. STEWART.

ODELL MEMORIAL ARCH FUND

Vote passed April 7, 1913

That, the City of Franklin hereby accepts the sum of two thousand dollars given to said city, March 3, 1913, by Mrs. Herman J. Odell, same to be known as the "Odell Memorial Arch Fund," and said city hereby contracts and agrees with the said Mrs. Herman J. Odell, her heirs and assigns, to pay four percent interest annually on said sum, said interest to be expended by duly authorized agents of said city for the following purposes only, to wit:

First. For the care and repair of the Odell Memorial Arch.

Second. For the lighting of said arch.

Third. Balance for the care of the Odell Park.

It is further voted that a copy of this vote of acceptance and contract shall be printed annually in the city reports.

Approved.

W. W. EDWARDS, Mayor.

FINANCE COMMITTEE REPORT

To the City Council of the City of Franklin:

The committee on finance has checked off the interest coupons paid during the year, amounting to five thousand and fifteen dollars (\$5,015.00), also Water Works Refunding Bonds of October 1, 1921, Numbers 31, 32, 33, 34, 35, amounting to five thousand dollars (\$5,000.00) and Nesmith School, Heating Plant and Park Bonds, Numbers 1 to 30, amounting to thirty thousand dollars (\$30,000.00) and have destroyed same.

1927.

Jan.	1,	On deposit in Franklin National Bank to pay interest coupons not presented in 1926	\$290 4,775	
			\$5,065	00
		Coupons presented for payment and destroyed by Finance Committee On deposit in Franklin National Bank	\$5,015	00
		to pay overdue coupons, 1927 account	50	00
		-	\$5,065	00

W. EARLE GOSS, ALBERT H. MAILEY, WM. H. MARTIN,

Finance Committee.

CITY SOLICITOR'S REPORT

The city has had no new cases in the Superior Court during the year. The cases of appeal from land damages in laying out a piece of State highway near the Orphans'

Home have not been pressed for trial.

I have had to advise the Council and their Committees and the Board of Education on various occasions, but on nothing that would be of general interest. The question has arisen during the year whether the City is obliged by law to furnish school privileges to children at the Golden Rule Farm in cases where the parents are not residents of the city. Legal opinions have been given in favor of each side of the question. The Orphans' Home in late years has furnished school privileges to its inmates without expense to the city. The School Board has arranged the matter temporarily but it is likely to be raised again if the Golden Rule Farms Association prospers. It would seem wise at the next session of the legislature to have the law made more clear on this question.

EDWARD G. LEACH, City Solicitor.

CEMETERY TRUST FUNDS

The following funds have been placed in the care of the Trustees of Trust Funds for the City of Franklin in trust, the income to be expended in the care of various lots in cemeteries within the city, agreeable to Chapter 51 of the Public Statutes, and a resolution of the City Council adopted September 3, 1900:

Extract From the Will of Sarah Davison of Sanbornton, N. H.

"To the City of Franklin, N. H.:

"I give the sum of two thousand dollars in trust, the income to be expended under the direction of the Trustees of the Franklin Cemetery in the general care and improvement of said Cemetery."

Dated November, 1916.

MARY J. COLBY FUND

In the year of our Lord one thousand nine hundred and thirteen.

A resolution relating to the Mary J. Colby Fund.

Resolved by the City Council of the City of Franklin as follows:

Whereas, By the terms of the will of the late Mary J. Colby, the sum of ten thousand dollars has been given to the City of Franklin, N. H., in trust, the income to be used annually for the support of the poor of said city, and the principal to be known as the Mary J. Colby Fund:

Be it Resolved, That the City of Franklin, N. H. in accepting said trust fund hereby votes that same shall be deposited by the Treasurer of said city as follows, to wit: That the sum of five thousand dollars shall be deposited to the credit of the City of Franklin, in the Franklin Savings Bank of Franklin, N. H., *(and the sum of twenty-five hundred dollars shall be deposited to the credit of the City of Franklin in each of the following named banks to wit: New Hampshire Savings Bank and Merrimack County Savings Bank, both of Concord, N. H.), to be known as the Mary J. Colby Fund, and that the annual interest or dividends paid by said banks on said deposits shall be expended for the benefit of the poor of Franklin, N. H., by an agent who shall be elected by the City Council of said city of Franklin, for a term of one year, and that said agent shall annually make a return to said city of the names of the persons assisted and the amounts to each, but that said names shall not be included in the list of paupers, or published.

Approved, W. W. EDWARDS, Mayor.

Passed September 8, 1913.

*Enclosed clause repealed February 6, 1922.

That part of the above resolution relating to "an agent who shall be elected by the City Council" was repealed September 13, 1915, and trustees appointed under provisions of Chapter 162, laws of 1915.

February 6, 1922. Amended by authorizing the Trustees of Trust Funds to withdraw said money and invest same in the Bonds of the City of Franklin.

LIBRARIAN'S REPORT

To the Trustees of the Franklin Public Library:

More books have been added to the library during 1927 than in any one year since its opening in 1907. There were 1,013 new titles, and many replacements and books for small children of which no particular record was made. Primers, first and second readers; primary histories and geographies seldom wear for more than three months, and it seems a waste of time to catalogue them.

The money received from fines and rentals was \$726.04, which was \$159.30 more than any previous year. It would be difficult, if not impossible, to supply the constant demand

for current fiction without this source of income.

Dr. Charles Francis Potter, in a recent survey of the "cultural agencies in a democracy," decided that Cleveland, Ohio, with its per capita appropriation of \$1.39 for the support of libraries, is now the American Athens, while Pittsburgh was lowest in the scale. What he would think of Franklin's .71 per capita tax can only be imagined.

Our circulation of 63,959 is in direct response to the large increase in books; and that the class of reading has improved, the 19 plus percentage of non-fiction proves. More money for books, and better books, would increase

this percentage appreciably.

The Trustees have shown their usual generosity in the matter of gifts. Miss Proctor and Mr. Hancock have given a number of books, and Miss Mary Scribner placed a map of Merrimack County, printed in 1835, among our historical treasures.

A set of electrical books was given by Mrs. B. B. Tobie,

the property of her late husband.

A small flower garden has been planted in the rear of the

library.

The most urgent need, aside from money for books, is for some new chairs; a magazine cabinet; and a room fitted up in the basement as a study room, where teachers can meet with their classes when there is special library work to be done, an almost daily occurrence during the school year.

The	statistics	of	circulation	for	the	past	twenty-one	years
follows	:					_		

Tonows.				
Non fiction	Fiction	Total	% non-fiction	new titles added

RATES

All customers are supplied through meters. The minimum charge is seven dollars and fifty cents per year, which entitles the consumer to 2,000 cubic feet during the year. Rentals are collected quarterly. For the first 1,000 feet or less in each quarter the charge is $37\frac{1}{2}$ cents per 100 feet; for the excess over 1,000 feet used each quarter 25 cents per 100 is charged. Upon all quarterly bills exceeding \$12.50 a discount of 25 per cent of the excess over \$12.50 is made.

No charge is made for private hydrants or for auto-

matic sprinkler service.

BOARD OF EDUCATION

SUPERINTENDENT'S REPORT

To the School Board of Franklin:

I herewith submit my sixth annual report as superintendent of schools, it being the twenty-seventh in the series of similar reports.

The School Board is rather a unique organization. By law they are created a separate and distinct elective body; given legislative, executive and something even of judicial powers. To them is entrusted the responsibility of administering the educational program, and with this responsibility comes the duty of keeping its constituency—the public—informed concerning that program.

The schools cannot rise much above the conception of their function by the public. Only in so far as the public is constantly and intelligently informed of the work, progress and needs of the schools can it form intelligent opinion

or careful and true judgment regarding them.

The public schools have only one source of revenue—public taxes. Whether the people vote adequate school support willingly, depends upon how well they understand what is taking place and why. The schools must render an account of their stewardship to the public.

How best can it be done? The public are engrossed in so many more attractive subjects that it becomes a real

problem to inform them.

It has been estimated that 96 percent of the average individual's time is used in consideration of his economic interests—work, wages, cost of living, investments, insurance, etc.—utility interests—gas, electricity, water, telephone, sidewalks, paving, street lighting, etc.—health, religion, sport, national politics, local politics, art, music, theatre, movies, society happenings, inventions, crime, etc., etc.

Only four percent of time is left for keeping one's self generally informed. It is a distinct problem how to attract a part of this four percent allowance to keep one informed of the most important social undertaking—education.

We are too apt to imagine that the public is indifferent to education. It is not. The reason that so few apparently are interested is because of the demands of a multiplicity of easily available interests, coupled with a minimum of available time. The average citizen gets his information first, from the most readily available source the newspaper or magazine; second, from social contact with neighbor or fellow worker.

The annual city report is the principal generally accepted agency of information regarding the schools. I wonder if fifty percent of those who should read the school report, do so?

The fact is, too few people in the community know the real facts concerning what the schools are doing, or trying to do, and too little of the four percent time allowance is given to being informed about them or keeping in touch with them.

As your executive agent, I submit the following information about the schools: what has been done the past year, what is doing and what the needs, immediate and future are, and trust that a fair amount of time may be given by the public to consideration of this information and that it may lead to closer relations and better understanding between the public and its schools.

It is my conviction that promotion of school children should be determined not only by some standard passing mark in their various branches of study, but also by certain characteristics, recognized as essentials of and indications of strong character, leadership and ability, that experience

will later properly develop.

To this end report cards were adopted last year giving not only scholastic markings but opinions representing the composite judgment of all the teachers dealing with the particular individual concerned. Such things are considered as, degree of interest manifested, carelessness in work and preparation, effort, conduct (rudeness, discourteousness, inattentiveness, annoyance to others, etc.) capabilities, general

attitude toward work. outside interests, prominent aptitudes,

and qualities of leadership.

These things, we believe, are as valuable in determining the latent abilities and future possibilities in the boys and girls as scholastic markings can be. This type of card calls for a closer study of the pupil, not by one teacher, but a'l the teachers: a study that helps the teacher better to understand the pupil and consequently more effectively direct his or her studies and other activities toward a symmetrical development.

These cards, too, have helped to bring about closer relations between home and school; a better understanding between parent and teacher, and a much fairer estimate of a

pupil's fitness for advancement.

The past year, also, has developed in all the grades a system of more extensive individual work. The old group recitation method, for other than test purposes, is fast becoming another "thing of the past." Individual help is securing better results because the teacher is enabled better to understand individual weaknesses and needs and render the necessary remedial service. Errors, rather than perfected work, are studied by the teacher, and made the basis of individual help.

Individual differences in pupils are taken into consideration: those capable of doing more work are given more to do: those capable of advancing to another division or grade are advanced, whether it be in January, February or June.

The junior high school affords opportunity for study and directing of individual aptitudes as mentioned in a previous

report.

Thus it can be seen that the study of the individual child and its welfare is a school policy and the duty of each teacher. The cooperation of the home with the school in this study has been of great value to both teacher and pupil.

The Franklin schools are recognizing that education does not come entirely from books; that they serve as a means to an end only: that the school activities, plays and games, debating, dramatics, orchestra, band, civic clubs, and athletics in its various forms are all habit-forming agencies, as valuable for developing good citizens as are books. Education after all is but the development of proper activities through right habit formation.

Are the schools functioning? Does the high school prepare for college? The large number of its graduates attending the colleges answers this question. The graduates attending Normal School fitting themselves for service as teachers: those training in hospitals for service as nurses: those who have gone to other schools for advanced training in whatever line of work, all testify to an inspiration received in the schools of Franklin.

The graduates of the commercial department are filling important positions here in Franklin and elsewhere. Of 33 graduates from this one department in the last three years, 19 are holding positions in the stores, bank and business offices in this city; four are holding similar positions elsewhere and three are continuing their training in advanced schools.

The mechanic arts department is interesting the boys and undoubtedly is determining the vocation of many of them: two graduates from this department are at Keene preparing themselves to teach mechanic arts: others are working at machine trades here in the city.

To just what extent the domestic arts graduates function is difficult to determine. It is safe to say they should be well prepared to make their own plain clothes and to do ordinary plain cooking. They should be good home makers.

I feel that the Franklin schools are doing the work they are expected to do: furnishing competent labor for the industries, stores and offices of the city: inspiring the boys and girls to seek higher education and have been remarkably successful in preparing them to do this: making better citizens, healthier and happier citizens and those able to be of service to their community.

Improvements of the Year

The Kindergarten room in the Hancock building has been newly finished in gloss white. This room, formerly dark and somewhat dreary, is now a light, cheery pleasant room for the little children to work and play in. New blackboards have also been installed in this room. The change is much appreciated by the teacher. The second grade room was equipped with movable adjustable chair desks. The basement of the Hancock school was newly painted.

The "Morrison School" was painted outside and repaired inside. New steps at the front entrance were also built.

The "Golden Rule Farm" school was newly shingled, and thoroughly renovated and painted inside. More than three hundred dollars was expended on this building last summer.

The Nesmith building was repaired, the front painted and some alterations made. New movable, adjustable chair desks were installed in the second grade room.

At the high school needed improvements were made in the lighting of the commercial room, and alterations made in the boys' basement. The toilets throughout the building were newly painted. Acts of vandalism committed the Fourth of July within this building were repaired at an expense to the city of over \$90.00. Damage due to the bursting of frozen pipes in this building costs considerable each year. A lunch counter has been built and equipped and serves about fifty people each day.

At the junior high building a new machine lathe capable of doing larger machine projects was installed in the mechanic arts department, and more adequate equipment furnished both mechanic arts and domestic arts departments.

A cafeteria, capable of accommodating seventy pupils, has been constructed and equipped in the basement of the junior high building. Here each noon, hot cocoa and some other hot serving, as soups, chowders, scalloped potatoes, macaroni with tomato sauce, etc., is served. This department is being well patronized by the pupils and much appreciated. Eleven cents pays for the lunch. Those really unable to pay are served free of charge.

The large number taking the mechanic arts work necessitated a third teacher in this department. Mechanical drawing and pattern making was introduced this year and a fairly adequate equipment for mechanical drawing provided. The pattern making will need considerable equipment next year.

Summer School

The Summer School was maintained for five weeks and there was an enrollment of 96. Four teachers were employed.

Health

The usual examination of children has been made throughout the schools.

The report of the school nurse gives a full account of her

ictivities

The "Toxin anti-toxin" treatment has been given throughout the schools, and is perhaps the outstanding achievement of the health program for the year.

Music

The musical activities of the schools are a credit, not only to the supervisor, but to the schools themselves and the city. Mrs. Watts is a music enthusiast and gives of her time and strength unsparingly for the success of the musical organizations of the school. I hope her report will be read in full that you may better understand all that is being done along this line in Franklin schools. Credit is now allowed for participation in Orchestra, Band or Glee Clubs.

Teachers

For this year, it was necessary to engage for the high school three new teachers; a new headmaster, domestic arts teacher, and English teacher. One of these had had no

previous experience.

Mr. Kendall, the headmaster, at the beginning of the year had the difficult problem of reorganizing a somewhat disorganized high school. The task has not been easy, but he has proven himself equal to the task and has received the cooperation of his teachers. The morale of the school has much improved since last September. I am anticipating a most profitable year in the high school. (See headmaster's report).

In the junior high school four new teachers were secured, two with long experience, two with none. An assistant principal was engaged who has not only relieved an overburdened principal but strengthened the teaching force very materially. Miss Jeffords' experience at Plymouth Normal School has been of great value in her work here. This school is doing a splendid work with the more than two hundred boys and girls enrolled here. (See principal's re-

port.)

In the grades two new sixth grade teachers at the Falls, and a new Kindergarten and fourth grade teacher at the Nesmith were secured, all experienced but one.

We have 39 regular teachers and eleven of these are new

to Franklin this year.

I consider the teaching corps as a whole as good as we can reasonably expect for the salaries paid. The larger number of teachers now on the market in New Hampshire will probably tend to keep the average teacher's salary in the grades stable. The better teachers and superior teachers will continue to command more salary. Teachers are realizing this fact as is seen from the increasingly large number improving themselves by professional reading and attendance at summer schools.

Finances

It is interesting always to the tax payers to know "where the money goes." The detailed financial report will show this; but it may be summarized, possibly, in a more interesting and more enlightening way by using percentages. The seventy-eight thousand dollars spent in the school department in 1927 is accounted for as follows and compared with 1926.

For every \$100 expended:

Tor every \$100 expended.	
In 1927	In 1926
\$63 29 was for teachers' salaries	\$61 90
14 17 was for operation and maintenance	of 16 90
school plant (janitors, fuel, light a	
power, janitors' supplies and repairs)	
6 34 was for auxiliary agencies (transporta	tion 5 80
health, playground activities, etc.)	
4 90 was for administration, Supt's. sala	
per capita tax, truant officers, enumerati	on
and office expenses.)	
4 67 was for equipment and construction	4 90
6 09 was for books and supplies	4 40
54 was for insurance	1 20

It will be noticed that the increases came in teachers' calaries, transportation and books and supplies.

In this connection it might be interesting to compare financial averages with other towns and cities and the state as a whole. The figures are taken from report of State

Department of Education.

The average cost per pupil, for instruction only, in the Franklin High School in 1926-27 was \$86.14. The average cost per pupil in the state was \$103.97. In the cities of the state the average cost was as follows:

Portsmouth	\$75 42
Keene	81 83
Rochester	81 91
Franklin	86 14
Dover	99 74
Nashua	104 96
Concord	105 29
Manchester	119 04
Berlin	123 24
Laconia	127 80

Of 84 high schools in the towns and cities of the state, 68 average to pay more per pupil for instruction than does Franklin and only 15 average to pay less.

High School Costs (total)

The average per pupil cost (total expenditures) for high school education in the state as a whole in 1926-27 was \$142.26. In Franklin it was \$107.82. Of the cities of the state, Portsmouth, Rochester and Keene had a lower rate. Portsmouth with an average cost of \$86.92 was the lowest of all the high schools of the state. The city with next higher cost than Franklin was Dover, \$122.85. In the whole state there are 14 high schools with lower per pupil cost than Franklin, ranging from \$86.92 in Portsmouth to \$105.18 in Milford. There are 69 high schools with higher average per pupil cost, ranging from \$109.22 in Ossipee to \$278.94 in Pittsburgh and the exceptionally high \$401.64 in Betblehem

Elementary School Cost (total)

The Average per pupil cost (total expenditures) for Elementary Schools of the state as a whole in 1926-27 was \$73.84. In Franklin it was \$74.12.

In the towns and cities of the state, 146 had a higher rate than Franklin and 94 lower.

Per \$1,000 of Equalized Valuation

When considered from the point of current costs for education per \$1000 of equalized valuation, Franklin, with an expenditure of \$7.09, is low; there are only 43 school districts in the state paying less and 248 paying more. The range of cost is from \$3.04 in the town of Livermore, to \$25.97 in Bartlett (special district).

Total Cost of Education

The total average cost per pupil for both high and elementary school education in the state, according to data taken from expenditures by local school boards was \$108.04. In Franklin the total average cost was \$85.84.

Cost of Books

The average per pupil cost for elementary school books in the state was, \$1.33; in Franklin \$1.77.

The average per pupil cost for high school books in the state was, \$3.60; in Franklin \$4.17.

Cost of Supplies

The average per pupil cost for elementary school supplies in the state was \$1.67; in Franklin \$2.53.

The average per pupil cost for high school supplies in the

state was \$4.66; in Franklin 4.52.

From these figures you will notice: the average per pupil cost for instruction alone in the high school in Franklin is \$17.83 below that of the average of the state as a whole; only three cities being lower. This means that Franklin is paying for instruction below the average.

The average cost per pupil for total expenditures for high school education in Franklin is \$36.44 below that of the

state; a very creditable showing.

The average per pupil cost for total expenditures for elementary schools in Franklin was \$0.28 above the average of the state, but with only 94 places, small and large, in the whole state with a lower cost.

For books for elementary schools, Franklin has paid \$0.44 per pupil more than the average of the state; for high school

books, \$0.57 per pupil more.

For supplies—elementary—Franklin has paid \$0.86 per pupil more than the average of the state; for high school supplies \$0.14 less. For books and supplies, then, Franklin has paid more than the average.

But, for total expenditures for education—both high and elementary—Franklin's cost was \$22.20 per pupil below the

average of the state.

From the standpoint of "Equalized Valuation" the expenditure for schools in Franklin per \$1000 of valuation—\$7.09—is very low. Of 292 school districts in the state,

248 are paying more than Franklin.

It should be evident from these figures, taken from official reports of the state, that Franklin is not overtaxed for school purposes and that, as a whole, school expenditures are far below the general average expenditures of the state for schools.

Musical Organizations

The schools are well represented by good talent in orchestras, glee clubs, harmonica clubs and the band. But all are much restricted in their possibilities because of being self-supporting. Being public school organizations, whenever called upon by the public, they freely serve. There is no income for their support. Are they not a legitimate factor for educational expenditure, as development of musical talent is surely educational?

This city and others appropriate money for band concerts to encourage local organization of a band and to give enjoyment to the citizens; and this is right. Why should not the school district appropriate a certain sum for support of its musical organizations which are a part of the activities of the school and at the same time of local, as well as personal value?

Graduation Honors

Heretofore, the six or seven pupils of the senior class having highest rank in any of the courses were selected to represent the school on the graduation program. Under this arrangement it frequently happened that one or more courses was not represented and another course might be represented by three speakers. Beginning with the class of 1928 the speaking honors will be awarded as follows; one

part for highest general scholarship regardless of course of study pursued; one part for highest scholarship from each of the five courses offered—College Preparatory, Latin Scientific, Commercial, Domestic Arts and Mechanic Arts. This provides for six speakers and for representation of all the courses at graduation exercises.

Penmanship

Two most discouraging subjects in school work have ever been, writing and spelling. While spelling is still trying the patience of the teachers and a "special drive" is being made this year to improve it, penmanship is no longer a particularly discouraging subject in Franklin schools, except in a few individual cases. The improvement in the average pupil's writing has been so marked in the past few years, that we now feel that our pupils are above the average in their ability to write legibly and neatly. We draw this conclusion not only from observing the work but from comparison with the writing of pupils from other school systems in and out of the state which we see in letters sent to our pupils.

Mrs. Welch has done excellent work in improving the standard of writing in the Franklin schools. We still have poor writers, we probably will continue to have them, but the great majority show decided improvement in writing

from term to term and year to year.

Valuable Gift

Mr. and Mrs. James Aiken have presented the schools with a valuable 3-inch lens telescope for use in the science classes. It was made in Paris 45 years ago. The lenses are powerful—the rings of Saturn and moons of Jupiter are visible with this instrument. The pupils will undoubtedly get much pleasure and profit from the use of it, and it is much appreciated by all concerned.

Recommendations

The "Golden Rule Farm" school will demand considerable attention in the way of repairs this year as it did last. The wood shed is "fallen in" and must be rebuilt. The toilets

are unsatisfactory and should be replaced with Kaustine toilets and connected with the school building. It will take about \$500 to do this work.

The Hancock School, with its Kindergarten and three lower grades, should be provided with Playground apparatus. At the present time it has none whatever. It is a real need for which I ask consideration.

The playground at the junior high needs to be more fully equipped. These "ounds are extensively used throughout the year but especially during the summer months. are inadequately equipped to accommodate those who make use of them. The mothers bring their little children here to play in the sand boxes under the shade of the big trees, and to swing in the "baby swings". The "flood" carried away the most of this apparatus. The older children come here, because it is convenient and is their only playground. The tennis court is in great demand during school timenot accommodating a third of those who desire to use itand in the summer it is in almost constant use daily, not only by the townspeople, but by boys and girls and men and women from the summer camps and cottages. It badly needs resurfacing and there should be a second court built.

The expense of a good tennis court is large; but the demand for it and the extensive use made of it would seem to warrant the expense not only as a school need but as a community asset. The new courts at Odell Park will undoubtedly relieve the demand somewhat for this one during the summer, but not during school time.

There is stressing need of a reference library room at junior high to which the principal calls attention in her report.

The increasing numbers taking machine work at the high school will necessitate the purchasing of additional machinery for that department. A milling and drilling machine are much needed.

The indirect heating and ventilating system, installed at junior high, has never worked satisfactorily owing to an error in plan of construction. It is essential to good health that this be put in working condition. The one at senior high school needs consideration also.

I should like to see a School Savings System inaugurated in the schools. It would be a great agency for teaching thrift. The Franklin Savings Bank is willing to cooperate with us, and has been investigating several systems to find one that seemed mutually practical. I am hoping that this may be another one of the good things we shall be able this year to put into the schools.

I recommend for your consideration the future adoption of printing as another practical arts subject in Franklin schools; not as a vocational subject, nor from a commercial standpoint, but wholly from the educational value of it. There is no better agency than printing for teaching the mechanics of language—correct punctuation, capitalization, paragraphing, division of words and spelling. Printing is a most natural adjunct of language teaching. It also is a great means of teaching art appreciation, esthetic satisfaction, the choice of beauty rather than ugliness and the wholesome effects thereof on human character. In the last fifteen years instruction in printing has been introduced into more than two thousand schools in the United States and Canada.

I also recommend visual education by means of the motion picture. Seven years of experimenting in New York has shown conclusively in every instance that the motion picture is an effective instrument for teaching purposes; that observation is trained, imagination stimulated, expression enriched and even retention improved by its use.

Our children are going to learn through the film whether we wish it or not; therefore the schools may as well take hold of the situation and put the motion picture to the best possible use by utilizing it in our formal instruction. The number of real educative films, edited by bona fide educators, for special use in the class rooms, is now large and readily obtainable. Such films as one shown to the pupils through the kindness of Mr. Smythe will do more in an hour to fix historical facts in the minds of the pupils than a week of class room instruction can do.

We have advocated the employment of a drawing teacher in several reports. We have many pupils in the schools who show special aptitudes for this branch of education and the school has some responsibility in this matter. The expense has seemed prohibitive and the amount of work insufficient to employ a teacher for full time. If possible to make an arrangement with another town for a part time teacher it might be advisable for us to do so.

There will be the usual amount of minor repairs to be done on all our buildings this summer.

Conclusion

The past year has been, on the whole, a successful one educationally. The teachers have done hard work, the pupils have made good progress and the standards of the school have been improved.

It is to be regretted that so few citizens, comparatively, really know the kind or quality of work being done in our

schools.

It is not uncommon to hear some citizen, who for the first time is visiting the practical arts department of the school, exclaim: "Why I didn't know you had anything like this." I am sure there are many who would express like surprise should they tour the Franklin schools from the lowest to

highest grade.

There are yet too many leaving school before obtaining a high school education. It is probable that, for many of these the schools are failing to provide in their curricula what interests them and that a great responsibility for the welfare of these rests upon the schools. We are trying to meet this responsibility, but fear we are not making rapid progress. Our courses of study are reasonably elastic, but evidently we are not yet successfully discovering the real supreme interests of some of the boys and girls.

The percent of loss in our schools is not large—much less than under the old seventh and eighth grade system, as shown in the report last year—but to have even a few leave school and not improve all the educational advantages offered by the city is, to some degree, not only a personal, but a public calamity. We shall continue to work on this

problem.

The past year has presented more serious school administrative problems than any year since my connection with them. I consider that the city has reason to congratulate itself upon the personnel of the School Board which has had to consider these problems. The Board has been discerning, considerate, fair to all, cooperative and constructive in their decisions. Mr. Sulloway, who completed his three year term

of office, has been of great help in the consideration of the perplexing questions of the year. His big business experience has enabled him to consider all the problems in a big way, and his advice has been valuable and sound. He was always particularly desirous of being fair and just in all his decisions and of being cooperative with every organization and agency that might be of help to the schools or that the schools might help. His vision has been broad and aided materially in the final settlement of many of the problems. His whole service has been helpful, kindly, full of real interest and a desire to do what was for the best good of all concerned. It is to be regretted that he felt he could no longer serve.

We feel, however, that the people have made a wise choice in electing Dr. Woodman to the Board. As a member of the city council and as a parent, Dr. Woodman has long been intensely interested in the schools of Franklin. This interest will mean profit to the schools through his

service.

I wish to express my appreciation of the splendid cooperation the Board has given me this last year. It has been a real pleasure to work under such especially pleasant

and harmonious relations.

I appreciate, too, the pleasant relations existing between the teachers and myself. Our work together has been with one object, to help the boys and girls entrusted to our care and make the schools of Franklin among the best. We are doing both.

Respectfully submitted,

FRED S. LIBBEY,

Superintendent of Schools.

ANNUAL REPORT OF THE HEADMASTER

To the Superintendent of Schools:

I herewith submit my first annual report as Headmaster of the High School. The fall term has just closed, and with the completion of this part of the year's work it is possible for a newcomer, to some extent at least, to have a fairly clear view of the situation.

The senior high school has had to date a total enrollment

of 149 pupils, distributed as follows:

	Boys	Girls	Total
Sophomores	30	37	67
Juniors	19	30	49
Seniors	12	20	32
Post-graduate	1		1
	62	87	149

Of this number seven have been discharged and one is at present a non-member because of illness. These discharges have been classified as here shown:

Sophomores—two girls, illness; one girl, death; two boys, employment.

Juniors—one boy, lack of interest; one girl, employment. A choice of five curricula are offered the pupil entering high school, viz., the Latin-Scientific, College Preparatory, Domestic Arts, Manual Arts, and the Commercial. The elections this year are approximately:

Latin-Scientific	21
College Preparatory	20
Domestic Arts	35
Manual Arts	33
Commercial	32

The College-Preparatory Curriculum requires six years of Latin, and the Latin-Scientific four years. In each case the Latin is begun in the seventh grade. It is interesting to note that 38 pupils, more than a fourth of all the pupils in school, are studying this subject.

The Domestic Arts and Commercial subjects are elected at present only by girls, with nearly an equal number in each course. Although no boys have elected the commercial subjects for credit we have a special class of boys and girls in typewriting which meets twenty minutes a day, the members working to learn to typewrite for their own pleasure and satisfaction. Needless to say this group is making rapid progress.

The Manual Arts work holds the interest of many boys who would otherwise find little to keep their attention. This year the introduction of mechanical drawing has done much to enhance the value of the shop work. The sophomore boys, under the guidance of Mr. Harris, have been devoting considerable time to this subject. Advanced work will be possible next year, as the incoming class will have had elementary drawing in the ninth grade.

It may seem advisable in the future to re-arrange the subjects assigned to the various teachers in order to reduce the "per-pupil" cost of instruction, and to make for better organization. Such changes must depend somewhat upon the enrollment next September.

In addition to their regular classroom work, the pupils are offered much in the way of extra-curricula activities. These include athletics, class plays, general assemblies, debating, orchestra and glee clubs, while Mountain Day and the Senior Mother's Banquet are unique features enjoyed by pupils and teachers alike.

As a group our boys and girls are responsive to the instruction they are receiving, and for the fall term the work of the school has been satisfactory. Fourteen per cent of the school has earned marks of 85% or better in all subjects, and an additional ten per cent have done as well in three subjects. On the other hand, only a small number have failures in any subjects. While these figures are necessarily limited as a test of the work being done, they do indicate that a large number of our pupils are applying themselves diligently. If a pupil does satisfactory work in the four subjects required, and participates in any of the other school activities, he or she will have little or no time for idleness, and any indications of such idleness may not be justly blamed on the school.

The present school building is inadequate in every way. The corridors are dark although the lights are on, and the class-rooms are also poorly lighted. Ventilation is a problem, and the rooms are hot on warm days and cold on cold days. The toilets are dark, having no provision for artificial lighting, no ventilation, and are very badly located.

The open wells of the staircases present a constant source of danger, for there is always a possibility of someone falling three stories to the first floor by going over the railing at the head of the stairs, at that point scarcely more than two and a half feet high. I recommend that a netting be

placed in this well at the second floor.

The teachers of Franklin High School are keenly interested in the boys and girls who come into their charge, and they are constantly teaching more than mastery of subject matter. Their willingness to cooperate with one another, their conscientious work, and their loyalty merit comment. I am greatly indebted to Miss Manuel and to Miss Davis for their helpful suggestions and their willingness to give me the benefit of their knowledge of the past work of

To satisfy the educational ideals of today it is no longer sufficient that we have a fine school building, qualified teachers, and numerous pupils. All these may be present and still the school may lack that indefinable something which we call spirit or morale. A house can be beautifully furnished, with people living in it, but it may not satisfy our ideal of a home. So it is with a school. The building, the equipment, the teachers, the pupils-to attain their highest degree of usefulness these parts must grow together, and not until then do we have that quality which characterizes the real school. Such development takes time. I believe that a school should have definite aims for accomplishment. These may be somewhat idealistic, but must be clear enough to be stated and understood.

When our boys and girls can learn to work by themselves without too close supervision, when they can be depended upon to know and to do the right thing, or to do the right when they are shown it, then we may be satisfied that our school is accomplishing some of the cardinal principles of

education.

the high school.

In closing I wish to thank the Superintendent for the freedom he has allowed me in taking up the work of the school, and for the valuable advice and assistance he has from time to time given me.

Respectfully submitted,

RAYMOND L. KENDALL.

Headmaster.

REPORT OF PRINCIPAL OF DANIELL JUNIOR HIGH SCHOOL

To the Superintendent of Schools:

It seems to me a fitting beginning for the fourth annual report of the Daniell Junior High School to express to the School Board, Superintendent, staff and special teachers gratitude for wise, broad, open-minded administration and teaching. We are indeed fortunate in the efficiency of our executives and teachers.

The new year finds us ministering and administering to the needs of a student body of 210 adolescents as they are enrolled in our college preparatory, commercial, manual arts and domestic arts courses. It has been the policy of the administration to adhere to the prescribed courses in every way, but wherever specialization has seemed best we have waived curricula limitations. If the school could achieve the real purpose of a junior high school organization we should pay absolute attention to the individual differences of our pupils by offering them only those subjects, cultural or vocational, which would function in the daily life of the individual. We hope citizens of Franklin will not be satisfied with our school until they have made this type of teaching a reality. It means an enormous amount of money for equipment and specialists who would need to be employed for new vocational courses; but if our ultimate goal might include arts and crafts, millinery, laundry work, weaving, nursing, printing, electricity, automobile repairing and gardening, it would lengthen the school life of our

pupils and give them some trade upon which a livelihood could be built.

As I have said, the cost would be tremendous, but the return in good citizenship, skilled workmen and efficient business training would be a most worthwhile interest on the investment. This must become a reality for our future welfare.

This year our staff, including special and part-time teachers numbers seventeen. To those who are not familiar with running a school of this type and size that seems an overlarge number but there never can be too large a teaching force to supply adequately the present day needs of boys and girls. Even now many extra and intra-curricula activities have to be omitted because every teacher is teaching

or supervising practically every period.

It will be interesting to note and worthy your commendation that our staff members spend a portion of their small salary to specialize in their work by attending summer schools. Within the last two years, Daniell Junior High School teachers have studied at Harvard, Boston University, Massachusetts Institute of Technology, Keene Normal School and University of New Hampshire. Such demonstration means that Franklin's boys and girls are being given the training advised by today's educators and authorities on modern methods in education.

The Daniell Junior High School is, I think, the only junior high school in the state to have an assistant principal. An assistant makes possible closer supervision, and individual conferences and makes general school management

more worthwhile.

By adding another instructor in the manual arts department we have been able to supply courses in mechanical drawing and that will make our wood-working and machine shop work rise to the level we have been seeking for

four years.

The cafeteria dream has become a reality and each noon finds the lunch room well patronized. Lunch is prepared and served by the girls from the domestic arts department under the direction of the department head. It is not the purpose of the cafeteria to serve an entire meal but to serve something to supplement sandwiches, cake, etc., brought from home. Food is served at cost, and

for eleven cents a cup of cocoa and a scalloped dish, soup

or chowder may be purchased.

During the year our outside activities have consisted of an operetta, glee clubs, orchestra, harmonica band, ukulele club, plays given in assemblies by different divisions, class parties, civies clubs. Christmas sale of fancy work and canned fruits and jellies, and a magazine salesmanship contest. Again, these extra activities seem to those unacquainted with adolescents to be a waste of time. Our purpose is manifold: to develop talent that might otherwise remain dormant; to attempt an all-round or four-square development for everyone; and for a most important reason—to develop within the youth the ability to use his leisure time worthily.

The junior high school is very much in need of its own library of reference books and current magazines. We cannot possibly supply the demands that our pupils make for reference material. Never has the desire to seek information been so great as now and the more we can give.

the greater will be their fund of knowledge.

Up to the present time this need has been met by teachers going to the library with classes and under helpful and painstaking guidance of Mrs. Shirley much valuable research work has been done. Both our students and teachers wish to take this opportunity to express their thanks and appreciation to Mrs. Shirley for her untiring effort and help. I am sure room would be found and regular library hours scheduled if a library could be ours. To give a library to us would be a most beneficial way to use one's money.

A school as large as ours should have regular instruction in arts and crafts. In our special group of boys and girls we have those who seem to be gifted in drawing, coloring, construction and decoration. If we could offer them three or four periods a week of this work and relieve them of that subject which they cannot master we would be fulfilling the mission of a junior high school which is to supply the needs of growing children at an impressionable age. Yes, it means another teacher with a salary large enough to insure getting a specialist who could make beauty appeal to a first grade youngster or a twelfth grade senior. Per-

haps Franklin and Bristol might hire such an instructor

together.

I would like to urge every citizen to read the reports of Superintendent Libbey, the school nurse, the music supervisor and the supervisor of penmanship in order to become better acquainted with the work which we are trying to do.

At this time may I express our gratitude to parents for

their splendid cooperation during this year.

In closing, let me say that in all our teaching we are trying to inculcate these principles of education:

Good health,
A knowledge of fundamental processes,
Worthy home membership,
Good citizenship,
Vocational training,
Worthy use of leisure,
Ethical character.

Respectfully submitted,

BESSIE C. ROWELL.

REPORT OF MUSIC SUPERVISOR

Superintendent Fred S. Libbey:

I, herewith, submit my eleventh annual report as music

supervisor of the public schools of Franklin.

No radical changes have taken place in our music work during the past year, singing, in grades and both High Schools, being our primary aim. Along with the singing, our weekly appreciation work is being developed from the first to the tenth year of school life.

While instrumental music is the popular trend throughout the country, not every pupil is privileged to own an instrument upon which he or she can play even though he or she had the ability; but God gave to all a voice, by means of which, a great deal of pleasure, both to self and to others, can be given. I still believe, that to teach every boy and

girl to read music intelligently is the best musical equipment the public school music department can give as its contribution to present-day education.

At Junior High School the same plan for each class as was used last year and explained in my last report has been followed. Our outside time limit, allowing for changes of classes and distributing music is twenty-five minutes per group. This is a very short time and occurs once weekly. A boys' and girls' glee club have the same time allotment, weekly.

This fall in Senior High school music was made elective, which is much more ideal than any previous arrangement has been. A chorus of seventy-eight students sings twenty minutes weekly. Boys' and girls' glee clubs sing for a like period. These glee clubs as well as those at Junior High School are receiving voice training as part of each singing

period.

An orchestra of nineteen pieces was organized this fall at Senior High School for one hour's practice weekly, half of this period is out of school time and half on school time. The State Board of Education is allowing credit for orchestra, band and glee club work in our Franklin schools this year and we are one of two schools in the state allowing credit for like work.

Operettas were presented by both High Schools during the past school year, Senior High's production being in my last report. "Penny Buns and Roses" was offered by Junior High School in February, giving two performances. This is the best thing Junior High School has given thus far. Plans are under way for the coming year for like productions.

Our music department observed National Music Week in May by presenting the musical organizations of both High Schools in a combined concert. This event will no doubt be carried out yearly during music week. The cantata sung at this concert as part of the program was Harvey Gaul's "I Hear America Singing." This was as difficult a cantata or work as we have ever attempted but the students gave it a creditable rendition.

The piano classes, started a year ago, have proved a success to the children who have faithfully practiced. Three

classes are held weekly at the present time. Two classes continued during the entire summer with two weeks' vacation—one, over the Fourth and one over Labor Day. The oldest class has finished the first year's work and six have gone on to private teachers. Four would have had to cease study, unless the class had continued, and their faithfulness and interest has made it advisable to continue their study in Six children from St. Mary's School have availed themselves of these classes at various times as well as children of our public schools. Classes are held during noon hours and after school, not during school hours. This work has proved exceedingly interesting and still realizing my lack of training for this particular branch, I have continued the work as there was no one else to do it. Rather than see it stopped, I have carried on as best I could. (I am pursuing study along this line at the present time, however.)

Our newest work this fall, has been a little creative work in music. Children were asked to write verses and then a tune for the verses and I have gotten some very interesting tunes as a result. We are not trying to develop composers but to develop the creative side of children in a way which has not been tried before. Music note books are also in process of construction: These to contain lives of composers whose music we may sing or hear in our appreciation work and study of various instruments, perhaps the history of their development, interesting musical items, local or otherwise. The children are exceedingly interested in this, finding things they never before knew existed. My hope is, that our music work will not find us as those with "eyes and see not" and "ears and hear not."

One senior girl is receiving weekly work in rudiments of music in preparation for her entry into Normal School next

fall.

There is yet a dream in the back of my mind that some day a place may be available for an assembly room for music activities. I mentioned this in last year's report. Cannot something be done, so that groups of children may have singing assemblies now and again without imposing upon the good nature of High School's removal from study hall that we may enjoy this privilege? That basement space is still not in use.

With the splendid cooperation of teachers, board and superintendent my work continues to be a joy and I trust it is such to the pupils in our Franklin schools.

Respectfully submitted,

ESTELLE C. WATTS,

Supervisor of Music.

Franklin, N. H., January 2, 1928,

SUPERVISOR OF PENMANSHIP

Superintendent Fred S. Libbey:

I herewith submit my sixth annual report as Supervisor

of Penmanship in the Franklin Public Schools.

We are continuing the writing this year, building upon the systematic efforts of the past five years, which have given the children in our schools a knowledge of how to write, and a certain amount of skill in writing legibly and freely. The writing which is being done this year is, I am sure, the best we have had since I began my work. Our aim is to get from each child, varying according to his age and grade, a plain, legible hand-writing and a habit of writing easily and correctly, which shall be of practical value to him, at school and at home. It is impossible to get this from every pupil in a high degree, just as it is impossible for every pupil to excel in arithmetic, or reading, or music, but the general average of writing in our schools is good. Rare is the paper which cannot be read, and many are those which are plain and legible.

I have had occasion to see, recently, a number of envelopes which were addressed at home by different pupils. There was no difficulty I am sure, in reading these addresses at the post office. I have seen several letters written by pupils, which had no connection with school work and they were very creditable to the writers. This is the test of our writing—the letters, the addresses, the home writing which they are doing. It must be a practical sub-

iect, or it is worthless.

The Commercial Class in the Junior High School is writing well. They have but one lesson a week, but under the splendid guidance of Miss French, they are carrying that lesson into their book-keeping, and are doing some

very good work.

Writing is being taught in many High Schools, and I would like to see it given a place in Franklin High School. There are many schools from which a pupil cannot graduate until he has obtained a fair average in his writing, and where credit for improvement in writing is given as with other studies. This is the ambition which I have for our High School, when it shall be practicable.

I would like to thank you and the school officials for the hearty support given, and the teachers for their splendid

cooperation.

Respectfully submitted,

HELEN P. WELCH, Supervisor of Penmanship.

REPORT OF SCHOOL NURSE

Mr. Fred S. Libbey, Superintendent of Schmit the following report of my work:	ools, I	sub-

Skin disease	1	

In submitting the above report the examinations are not complete. There are four grades in St. Mary's and the High School yet to be examined. This is due to the time that has been given to the Schick test and Toxin Anti-toxin clinics for the immunization of the children to diphtheria.

The routine of previous years has been followed, that is, weighing and measuring, notice of defects sent to parents

and follow-up work.

Forty-five cases of tonsils and adenoids have been taken care of this year. Thirty-nine of these were cases coming under the supervision of the nurse, the other six were taken by their parents to a surgeon for treatment.

The orthopedic cases have been treated as usual.

The work of introducing the Schick test and Toxin Antitoxin for the eradication of diphtheria has been one of the things to which much time and effort has been given.

However, very great results have come from this. About 600 school children have had three inoculations of Toxin Anti-toxin. The pre-school children who are having treat-

ment are not included in this number.

This has been done through the cooperation of the City Physician, Dr. Smith, and the other two nurses who are doing Public Health work in the city, Miss Blake and Mrs. Maloney.

In regard to the immunizing the children, this should be

the duty of every parent and doctor in the city.

If, working together, we can give Franklin a clean bill of health as far as diphtheria is concerned it should be our duty to do so.

Like small pox, diphtheria can be eradicated. Toxin anti-toxin is perfectly harmless and can be given to children

as young as six months of age.

I hope in the near future it will be compulsory for a child before entering school to be inoculated against diphtheria the same as being vaccinated against small pox.

I take the opportunity of thanking you, the teachers,

nurses and doctors, who have given their cooperation.

Respectfully submitted,

A. R. PROVOST, R. N., School Nurse.

SCHOLARSHIP FUNDS

SANGER SCHOLARSHIP

Resolved by the Board of Education of Franklin:

Whereas, Warren F. Daniell has by his written communication addressed to the Board of Education, expressed his intention of establishing a free scholarship for graduates of the Franklin High School in Simmons College in honor of his mother, and to be known as the "Sanger Scholarship," and agreeing to pay annually a sum sufficient to pay the costs of tuition for one student for four years in any of the courses described in the catalogue of the College, and

Whereas, a student to be awarded this scholarship must comply with the following regulations: First, she must have completed four years' satisfactory work at the Franklin high school; second, her parents must reside in Franklin.

Be it Resolved: That the Board of Education of the City of Franklin fully appreciate the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young women of said city, thereby creating an additional incentive for higher educational advantages: and

Be it further Resolved: That said Board of Education willingly accepts said trust: and

Be it further Resolved: That a permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Headmaster of the High School of said city, and

Be it further Resolved: That this resolution shall be printed annually in the school report of said Board.

FRANKLIN STUDENT AID FUND

To the Mayor and Members of the City Council, Franklin, N. H.:

In June, 1921, I placed with Dartmouth College at Hanover, N. H., a fund of \$2,500.00—the income from which I wished to be used to assist under certain conditions students at that institution who were residents of this city.

It was found incompatible with the methods of disposing of the funds at Dartmouth College, to handle this fund under the conditions which I wished to impose—and for that reason I have transferred this sum from Dartmouth College to the City of Franklin.

I am attaching herewith the securities representing the fund together with a statement of the methods I wish fol-

lowed in disposing of the income from the fund.

Respectfully yours,

WALTER F. DUFFY.

FRANKLIN STUDENT AID FUND

Established by Walter F. Duffy, June, 1921.

A sum of \$2,500.00 is entrusted to the City of Franklin N. H., the income from which is to be used to assist worthy boys and girls, residents of this city, to secure a collegiate education or its equivalent.

The recipients of the income from this fund are to be selected by a board of three consisting of the Chairman of the Board of Education, Superintendent of Schools and Principal of the High School of the City of Franklin, N. H.

The income from this fund is to be disposed of under the following fixed conditions:—

I. Scholarship

A student must attain such satisfactory standing in studies as to make it apparent to the authorities of the institution of learning where he attends, that it is advisable that the student pursue his studies and that he is on this account worthy of financial aid.

II. Financial Needs

It is to be required that the students who receive benefit from this fund shall be obliged, through lack of family financial resources, to earn at least a substantial part of the money necessary to meet the expenses of their attendance upon their studies.

III. General Restrictions

It is to be understood that in alloting the proceeds of the fund, preference is to be given to students at Dartmouth College, Hanover, N. H., who are residents of the City of Franklin, N. H. If no such students apply for the benefits of this fund, then the income can be used to assist any boys or girls who are residents of the City of Franklin, N. H., and who are pursuing a course of studies in any institution of learning giving a collegiate education or its equivalent, provided that the first two conditions covering the disposition of the benefits of this fund are fulfilled.

It is also to be understood that the income from this fund may be divided between two or more students, and that any students who receive financial aid from the institutions of learning where they attend are not thereby pre-

vented from receiving aid from this fund.

If no students fulfilling the above requirements apply for the benefit of this fund the proceeds may be used as they accrue each year as seems best to the three persons mentioned above for the general educational good of the citizens of Franklin, N. H.

DANIELL SCHOLARSHIP

In the year of our Lord one thousand nine hundred and fourteen.

A resolution relating to the "Daniell Scholarship."

Resolved by the City Council of the City of Franklin, as follows:

Whereas, Jere R. Daniell of New London, Connecticut, on the second day of April, 1914, by his written communication of that date, addressed to the Mayor and Council of the City of Franklin, expressed his intention of establishing a free scholarship for graduates of the Franklin High School to the Massachusetts Institute of Technology, in memory of his father, the late Warren F. Daniell, and to be known as the "Daniell Scholarship," and together with his letter of the 16th of May, 1914, in which he agreed to give the sum of two hundred and fifty dollars each and every year, hereafter, beginning September 1st, 1914, to cover the cost of tuition for one student for four years in any one of the courses described in the catalogue of the Institute, and.

That a student to be awarded this scholarship, in whole or in part, must comply with the following named con-

ditions:

First. He must have completed four years' satisfactory work at the Franklin High School.

Second. His parents or parent must reside in Franklin, and be unable without undue deprivation, to pay the tuition required themselves.

Third. He must show during his four years' work at the High School, marked ability in some one of the several subjects covered by the Institute courses.

In case several candidates present themselves in any one year, the scholarship will be awarded by competition in the entrance examinations for the Institute. The candidate entering with highest standing to receive the award.

A holder of the scholarship will be expected to maintain the same standard of work at the Institute as that required of holders of regular Institute Scholarships and the scholarship will be withdrawn in case the work is unsatisfactory.

The right is reserved to divide the amount of the scholarship among several applicants should such action seem desirable.

Be it Resolved, That the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young men of said city, thereby creating an additional incentive for higher educational advantages in those who through misfortune or adversity would otherwise be prevented from obtaining the same; and

Be it further Resolved, That said City willingly accepts said trust, and does hereby direct that the annual payment of the sum of two hundred and fifty dollars shall be made to the city Treasurer, who shall pay the annual tuition of said student or students upon the presentation of the bill for same by the Bureau of the Institute, and,

Be it further Resolved, That a permanent Committee on Scholarship shall be established to consist of the chairman of the Board of Education, the Superintendent of Schools and the Principal of the High School of said City of Franklin, and

Be it further Resolved, That this resolution shall annually be printed in the reports of said city.

Approved,

W. W. EDWARDS, Mayor.

Passed June 1, 1914.

RESOLUTIONS

In the year of our Lord one thousand nine hundred and twenty-seven.

A resolution relating to the appointment of the Standing Committees of the Council.

Resolved by the City Council of the City of Franklin, as follows:

Finance, to consist of the Mayor and two members of the Council.

Passed January 3, 1927.

Approved,

W. EARLE GOSS, Mayor.

In the year of our Lord one thousand nine hundred and twenty-seven.

A resolution relating to hiring money.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor and City Treasurer for the time being, are authorized to hire money to pay the current expenses of the several departments, and any outstanding notes, bonds, or evidences of debt of the city becoming due, and to give promissory notes of the City therefor.

Passed January 3, 1927.

Approved,

W. EARLE GOSS. Mayor.

In the year of our Lord one thousand nine hundred and twenty-seven.

A resolution relating to the weekly pay rolls.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor be and hereby is authorized to draw his draft each week for the payment of the weekly pay roll of the highway, sewer and other departments where weekly payment is required.

Passed January 3, 1927.

Approved,

W. EARLE GOSS, Mayor.

In the year of our Lord one thousand nine hundred and twenty-seven.

A resolution relating to a bill in the legislature calling for an appropriation of \$75,000 for rebuilding the Republican Bridge.

Resolved by the City Council of the City of Franklin, as follows:

That the City Council hereby goes on record as approving the action of the representatives to the legislature from

Franklin, whereby they have introduced a bill calling for an appropriation to be used for the construction of a new bridge over the Pemigewasset river to replace the Republican bridge, so-called, in the City of Franklin, and providing that the making of plans and the construction of said bridge shall be under the supervision of the State Highway Commissioner.

Passed January 20, 1927.

Approved,

W. EARLE GOSS, Mayor.

In the year of our Lord one thousand nine hundred and twenty-seven.

A resolution relating to exempting new industries from taxation.

Resolved by the City Council of the City of Franklin, as follows:

That the City Council goes on record as being in favor of a law allowing towns and cities to exempt new industries from local taxation.

Passed January 20, 1927.

Approved,

W. EARLE GOSS, Mayor.

In the year of our Lord one thousand nine hundred and twenty-seven. .

A resolution relating to the discount in the collection of taxes.

Resolved by the City Council of the City of Franklin, as follows:

That in the collection of taxes the tax collector be authorized and directed to make the following discount: Upon all taxes paid on or before August 1, two percent, and

the collector shall give notice to all persons whose poll tax remains unpaid September 1, and if same is not paid in fourteen days thereafter, twenty cents shall be added.

Passed March 7, 1927.

Approved,

W. EARLE GOSS, Mayor.

In the year of our Lord one thousand nine hundred and twenty-seven.

A resolution relating to the Refunding of the Water Works Note of March 1, 1926.

Resolved by the City Council of the City of Franklin, as follows:

That for the purpose of paying the four thousand dollar Water Works Note of March 1, 1926, which was given to pay the balance of a Water Works Note of March 1, 1916, the city borrow of the Franklin Savings Bank the sum of four thousand dollars and issue its notes payable serially for that sum with interest at the rate of four and three-fourths (434) per cent, per annum; that the Mayor and City Treasurer be and hereby are authorized to make, execute, sign and issue four (4) notes of the city for one thousand dollars (\$1,000.00) each, payable serially, one each year, the first note becoming due and payable April 1, 1928 and the proceeds of said notes are hereby appropriated to the payment of said note of March 1, 1926.

Passed March 7, 1927.

Approved,

W. EARLE GOSS, Mayor.

In the year of our Lord one thousand nine hundred and twenty-seven.

A resolution relating to the refunding of the Nesmith, School Building, Central Heating Plant, and Park Funding Bonds of the City of Franklin issued June 1, 1907. Resolved by the City Council of the City of Franklin, as follows:

That for the purpose of paying the thirty thousand dollars of Nesmith School Building, Central Heating Plant, and Park Funding Bonds of the City of Franklin issued June 1, 1907, and to refund the same under authority of and in compliance with Chapter 59 of the Public Laws of New Hampshire, the City borrow the sum of thirty thousand dollars and issue a Registered Bond therefor: that the Mayor and the City Treasurer be and are hereby authorized and directed to make and issue, sign and affix the City Seal thereto and issue a Bond of the City for the sum of thirty thousand dollars, substantially in the form prescribed by Chapter 59 of The Public Laws of New Hampshire, said Bond to be dated June 1, 1927, to be made payable to The Franklin Savings Bank with interest at the rate of four and one-half per centum per annum, payable semi-annually on the first days of June and December. The principal of said Bond to be made payable on presentation at maturity, as specified in said Bond, at The Franklin National Bank of Franklin, New Hampshire, or at the office of the City Treasurer: said Bond to become due and payable serially, one thousand five hundred dollars on the first day of June, 1928, and one thousand five hundred dollars on the first day of June of each year thereafter until June 1, 1947.

Passed May 31, 1927.

Approved,

W. EARLE GOSS, Mayor.

In the year of our Lord one thousand nine hundred and twenty-seven.

A resolution relating to the appropriations for the year one thousand nine hundred and twenty-seven.

\$238,344 48

Passed June 22, 1927.

Approved,

W. EARLE GOSS, Mayor.

In the year of our Lord one thousand nine hundred and twenty-seven.

A resolution relating to raising money by taxation.

Resolved by the City Council of the City of Franklin, as follows:

That the sum of \$205,169.61 be raised by taxation the present year and that the assessors be instructed to assess for that amount as follows:

State Tax	\$21,508	45
County Tax	11,937	65
Public Library	4,500	00
School Money by Law	26,329	30
Bearing Money	3,318	
Poll Taxes		
National Bank Tax	1,522	00

\$75,669 61

and the sum of \$129,500.00 to meet the current expenses provided for by the appropriations made and the same be appropriated with the other revenues of the City to meet the same.

Passed July 6, 1927.

Approved,

W. EARLE GOSS, Mayor.

In the year of our Lord one thousand nine hundred and twenty-seven.

A resolution relating to exempting the Franklin Counter Company from local taxation.

Resolved by the City Council of the City of Franklin, as follows:

That the City of Franklin hereby exempts the Franklin Counter Company from local taxation for the term of five years from date, on all machinery used by them in their manufacturing business and all stock in trade.

Passed August 1, 1927.

Approved,

W. EARLE GOSS, Mayor.

ORDINANCES

Relating to the Collection of Garbage

In the year of our Lord, one thousand nine hundred and sixteen.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. The collection of garbage by the highway department of the city shall be made at the times and under the conditions herein set forth, and in no other manner.

Section 2. Weekly collections will be made each Saturday starting at seven a. m., at the Daniell bridge on Central street and continuing easterly to the Sanborn bridge, including Smith, Canal and Memorial streets, and Franklin street southerly from Central street to Ayles Court. Commencing at ten a. m., on each Saturday collections will be made on Main street.

Section 3. That on the first Tuesday of each month, collections will be made on Willow Hill, Bow street, Glenwood avenue, River street, Terrace street and Ward one; on Wednesday following, collections will be made on Franklin street and all streets westerly to River street, and on Myrtle, Pleasant, Oak, Orchard, Pine and Beech streets, Highland and Elm avenues; and on Thursday, collections will be made on Prospect street and all streets between Prospect and Franklin streets.

Section 4. It shall be the duty of all persons residing within the limits hereinbefore set forth who desire to have garbage or refuse matter removed by the city to place same in suitable receptacles that can be handled by two men, carefully separating all papers, tins, bottles and other materials from ashes, and placing them in separate receptacles.

No garbage or refuse of any kind shall be put into the highway unless placed in receptacles, and all receptacles shall be placed on the outer edge of the sidewalk, a reasonable period in advance of the time specified for collections.

Section 5. This ordinance shall take effect upon its passage.

Passed March 6, 1916.

Approved,

A. A. BEATON, Mayor.

Report of Committee on Street Lighting Relating to Poles and Wires of Telephone and Other Companies

To the Mayor and City Council of Franklin:

The Committee on street lighting to whom was referred the subject matter, relating to the wires and poles of telephone and other companies, having considered the same herewith file their report and recommend that the same be adopted, to wit:

- 1. That poles of every kind and description and all overhead wires of telephone or other companies on Central street, between the Daniell bridge, so-called, and the Sanborn bridge, so-called, shall be removed on or before July 1st, 1916, and that all wires between said points on Central street shall hereafter be placed under ground, in accordance with such rules and regulations as shall be prescribed by the highway committee of said Franklin, with adequate provision made for installing by the city of such wires in the future as may be necessary for municipal purposes.
- 2. That the regulations now in force in said city relative to the erection of square poles by telephone and other companies, as adopted by said city, May 13, 1901, be and the same are hereby revoked as of July 1st, 1916, and that telephone and other companies on and after July 1st, 1916, may erect round, straight and painted poles on any street in said Franklin, other than on Central street between Daniell bridge so-called, and Sanborn bridge so-called,

provided, such poles proposed to be erected and the location of the same, shall first meet with the written approval of the highway committee, said written approval to be filed with the City Clerk of said Franklin.

- 3. That the maintenance of United States mail boxes and fire alarm boxes are exempt from the provisions of the regulations hereinbefore set forth.
- 4. That this report shall be printed annually in the City Reports.

Respectfully submitted,

JOSEPH M. LORDEN, ALVIN C. GILMAN, P. J. CUNNINGHAM,

Committee on Street Lighting.

Approved,

D. E. DAVIS, Mayor.

An Ordinance Relating to Unloading and Loading Vehicles Near the Underpass on South Main Street

In the year of our Lord, one thousand nine hundred and twenty-three.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. It shall be unlawful for the driver of any motor truck or other vehicle to stop and unload or reload any part of his load within the limits of the highway within fifty feet on either side of the underpass on South Main Street in this city.

Section 2. Any person violating this ordinance shall be liable to a fine not exceeding ten dollars.

Passed May 7, 1923.

Approved,

L. H. DOUPHINETT, Mayor.

An Ordinance Relating to the Erection of Signs and Advertisements

In the year of our Lord, one thousand nine hundred and twenty-four.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person shall place, establish or maintain any sign or advertisement over any part of any street, lane, alley, or sidewalk, without first having obtained a permit therefor from the City Council and Chief Engineer of the Fire Department.

Section 2. Such sign or advertisement shall be safely and securely fixed and supported; shall not project over the sidewalk more than two (2) feet, and the owner shall assume all risks to the public caused by such signs.

Section 3. Persons applying for a permit to erect a sign or advertisement shall state its size and weight, the nature of the material of which it is to be constructed and the manner in which it is to be supported.

Section 4. Any person or corporation violating any of the provisions of this ordinance shall be liable to a fine not exceeding twenty dollars.

Section 5. All ordinances or parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect upon its passage.

Passed April 7, 1924.

Approved,

L. H. DOUPHINETT, Mayor.

An Ordinance Relating to the Regulation of Street Traffic

Be it ordained by the City Council of the City of Franklin, as follows:

ARTICLE I

Definitions

Section 1. The word "vehicle" herein shall include horses hitched to vehicles, horses ridden or led, motor ve-

hicles of all kinds, bicycles, and everything on wheels or runners excepting light carriages for the conveyance of children.

- Section 2. The word "horse" herein shall include all domestic animals.
- Section 3. The word "driver" herein shall include the rider, driver or leader of a horse, the rider of wheels and the operator of motor vehicles.
- Section 4. The word "curb" herein shall mean the lateral boundaries of that portion of a street designated for the use of vehicles whether marked by curb stone or not so marked.
- Section 5. The words "intersecting way" herein shall mean any way which joins another at an angle whether or not it crosses the other.
- Section 6. The word "crossing" herein shall mean a way for pedestrians to go from one side of a street to the other which is marked by a pavement or otherwise; also points bordering the intersection of streets not marked but which are commonly used to go from one side of a street to the other.

ARTICLE II

Vehicles in Motion

- Section 1. A vehicle, except when passing a vehicle ahead, shall keep to the right and as near the right curb as possible.
- Section 2. Vehicles meeting shall pass each other to the right.
- Section 3. A vehicle overtaking another vehicle shall, in passing, keep to the left, but it shall not leave the line on the right unless there is a clear way to advance on the left.
- Section 4. A vehicle turning to the right into another . street shall turn the corner as near to the curb as possible.
- Section 5. A vehicle turning to the left into another street shall pass to the right of and beyond the center of the intersection of the street before turning.

Section 6. A vehicle crossing from one side of the street to the other shall do so by turning to the left so as to head in the same direction as the traffic on that side of the street.

Section 7. Slow moving vehicles shall keep as close as possible to the curb on the right so as to allow fast moving vehicles free passage on the left.

Section 8. No driver of a vehicle shall allow the same to come within ten feet of any vehicle in front of him

when approaching and passing over a crossing.

Section 9. The driver of any vehicle, before turning the corner of any street or turning out or starting from or stopping at the curb line of any street, shall first see that there is sufficient space free from other vehicles so that such turn, stop or start may be made safely, and shall then give a plainly visible or audible signal.

Section 10. Every bicycle operated during the period of one-half hour after sunset to one-half hour before sun-

rise shall display one lighted lamp on the front.

ARTICLE III

Signals, Noises, Smoke and Traffic Signs

Section 1. Every driver of a vehicle shall, in slowing up, stopping, or backing, give a plainly visible or audible signal to show his intention.

Section 2. In turning while in motion or in starting to turn from a standstill, a signal shall be given by the driver of the vehicle about to be turned by raising a whip or hand indicating the direction in which the turn is to be made.

Section 3. The police department shall control all traffic in the streets or highways. Police officers may divert vehicular or pedestrian traffic when necessary to avoid congestion or to promote safety and convenience; and no person having charge of a vehicle shall refuse or neglect to stop or start or place the same as directed by a police officer.

Section 4. No person shall break, deface, or move any official sign, post sign, post or signal device placed in a

highway for direction of traffic.

ARTICLE IV

Stopping, Standing and Turning

Section 1. No vehicle shall stop so as to interfere with or prevent the passing of pedestrians at crossings.

Section 2. On Central Street, between Memorial street and Prospect street, motor vehicles must park at an angle of about forty-five degrees or in accordance with the markings on the surface of the highway. On Franklin street between Central street and School street and on Memorial street and Smith street and on Central street between Memorial street and Main street, motor vehicles shall park with both right wheels close to the curb. The City Marshal under the supervision of the highway committee may have lines drawn on the surface of the highway and have suitable signs erected for the direction of traffic.

Section 3. No vehicle shall stand within the intersection of a street nor within five feet of a fire hydrant nor within ten feet of a street curb corner.

Section 4. Unless in an emergency, or to allow another vehicle to cross its path, no vehicle shall stop in any public street except close to the curb line.

Section 5. When a horse drawn vehicle is backed up to the curb, the horse or horses shall be turned so as to stand as near parallel with the sidewalk as possible and headed in the general direction of traffic for the side of the street on which the vehicle is standing.

Section 6. No vehicle incapable of being turned without backing shall be turned about in any of the following streets: Central street between Prospect street and River street, Franklin street between Central street and School street, Main street between Depot street and Webster street and Smith and Memorial streets.

Section 7. No horse or vehicle shall be driven back or allowed to stand on any sidewalk.

Section 8. No vehicle carrying passengers or merchandise for hire shall park on Central street between Memorial and Prospect street nor on Franklin street between Central street and Church street longer than necessary to

discharge and take passengers or load or unload merchandise. The City Marshal may assign such vehicle parking stations for their exclusive use.

ARTICLE V

Right of Way

Section 1. Police, Fire Department, United States Mail Vehicles, Ambulances, Funeral Processions and Emergency Repair Vehicles of Public Service Corporations shall have the right of way in any street.

Section 2. A person driving or controlling a vehicle waiting at the curb shall promptly give place to a vehicle about to take on or let off passengers.

Section 3. The driver of a vehicle, on approach of fire apparatus, shall immediately draw up said vehicle as near as practicable to the right hand curb and parallel thereto, and bring it to a stand still.

ARTICLE VI

Stealing Rides

Section 1. No person shall steal a ride upon any vehicle and no person shall ride upon the rear of any vehicle without the consent of the person in charge thereof.

ARTICLE VII

Penalties for Violation

Section 1. Any person violating any of the provisions herein contained shall be liable to a penalty not to exceed ten dollars for first offense, or not to exceed twenty dollars for any subsequent offense.

Section 2. Complaints against any person violating any of the provisions herein contained may be made at police headquarters or to any police officer. Copies of this ordinance may be obtained at police headquarters.

Section 3. The City Marshal may suspend any of these rules at any time if in his judgment it is wise to do so for the safety and convenience of the public.

ARTICLE VIII

Previous Ordinances Repealed

Section 1. All ordinances inconsistent herewith are repealed, and this ordinance shall take effect on passage.

Passed July 7, 1924.

Approved,

L. H. DOUPHINETT, Mayor.

Attest: IRVING V. GOSS, City Clerk.

In the year of our Lord one thousand nine hundred and twenty-six.

An ordinance in amendment to the ordinance relating to inspection, sale and care of milk, skim-milk and cream and the premises connected therewith, passed May 4, 1914, to be inserted between section 20 and 21.

Be it ordained by the City Council of the City of Franklin, as follows:

That all cattle producing milk or cream for the above mentioned purposes, for the City of Franklin, shall pass a satisfactory tuberculin test, as required by the State Department of Agriculture, on or after September 1, 1926. At the time of applying for a license the dealer shall file a certificate signed by a veterinarian approved by the Board of Health, stating that all cows in the herd or herds from which the milk is produced, have been tuberculin tested by him within one year and found to be free from tuberculosis, together with a detailed report of such tests.

Passed May 3, 1926.

Approved,

ELMER D. KELLEY, Mayor.

AUDITOR'S REPORT

To the Honorable Mayor and Council of the City of Franklin:

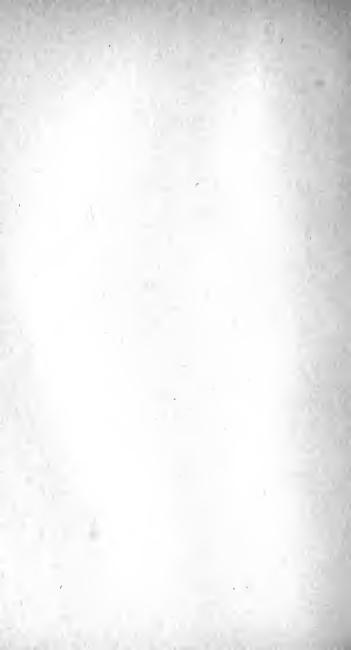

I have carefully examined and verified the books and accounts of the City Clerk, Treasurer, Tax Collector, Board of Water Commissioners, Superintendent of Water Works, Board of Education, Overseer of the Poor, Park Commissioners, Trustees of Trust Funds for the City of Franklin and Clerk of the Municipal Court, and find the same correctly cast with proper vouchers corresponding to all expenditures, and all receipts properly accounted for, and find the following balances to the credit of the city.
